

Impact Brief —

Unlikely Farms

Community communications that supported weekly deliveries, retention, and partnerships

The goal

Strengthen retention and program reliability by creating clear, consistent communication for a weekly delivery rhythm and partner coordination.

What I did

- Built a predictable communication cadence (updates, reminders, confirmations, gratitude)
- Created templates and checklists to reduce missed steps and last-minute confusion
- Implemented feedback loops to surface issues early and respond quickly
- Supported partner outreach and stewardship through clear asks and timely follow-through

Results

- **98%** retention supported through consistent community communications
- **18 weekly** deliveries coordinated with clear expectations and follow-through
- **4** partnerships built and sustained through relationship-focused outreach

Why it worked

Consistency reduced friction. People knew what to expect, felt heard, and trusted the process week after week.

Tools

Email/newsletter tools • Canva • Docs/Notion • (Optional CRM) • basic reporting

Redacted outreach templates, delivery-cycle communications, and a feedback snapshot available on request.
